My dear Sir

I was at Peterboro last week expecting to meet there a deputation from the N.Y. Vigilant Committee. But they did not come. They had announced their intention to convey this Hon John Cochrann but on Friday Mr. Smiths answer to Cochrann letter they changed their minds. He sent you a copy - they did not like I suppose the paying of the amount suggested by that letter.

We have an answer from Bennett of the Herald - the others have not yet answered and I suppose they may intend to let us take a Sherriffs Sargeant. The policy of this course would be to avoid the eclat of a public Jury Trial.

I have carefully _____ you argument on the jurisdiction of the State Court in reference to R. Phelps. I am satisfied that the Agreement is unanswerable & conclusive - and yet I do not think it would be policy to prosecute the suit against Phelps with the certainty of being obliged to go to the _____ Court of the U.S. with an unpopular cause & cleint asking them to disclaim jurisdiction conceded to them by the State. I think this would be wasting mney labor in vain,

In regard to the parties to the actions, we have concluded to prosecute the individual actions brough & to sue the Newspapers which published the article with Malice - we have prosecuted the Herald & Journal of Commerce & shall also prosecute the N.Y. Observer. The difficulties in the way of proof have constrained us to take this course instead of joining the thirtyone in each action against a newspaper.

We hope to get a trial at the September Circuit in Madison. The Herald answers alleging a justification- By our system them may prove facts in mitigation not amounting to a justification.

Very Truly Yours,

C.B. Sedgwick

My dear Sir,

I inclose Mr. Sherman's answer. It is a strange document - neither a justification nor denial & we shall probably move to strike out the second answer entirely. Please examine and give us your views of it.

I have given the Herald a stipulation allowing them to answer their answer. This will make the issue in their case subsequent to that in Sherman's and Barlows and we can try that case or not after Sherman's trial.

I think it is now assuming a good shape and that we can put Mr. Walls Sherman into the front rank where he belongs, and make him face the music.

I received your letter from New York. The proposition to compromise was about such an one as I anticipated.

Very truly yours.

Letter missing introduction, follows envelope "To Gerrit Smith"

Draft (in Spooner's handwriting):

I have been trying, for nearly twenty years, to believe that there was some solid friendship between us, founded on a mutual belief in the same ideas, and a mutual disposition to co-operate to carry them into effect. But I have at length become satisfied, as I ought to have been satisfied many years ago, that there is very little such friendship between us. And I will no longer suffer a man to claim friendship with me, who has as much money as you have, and who professes, in words, such friendship for me, and such appreciation of my labors, and at the same time shows, by his deeds, that he cares so little whether the world gets any benefit from my labors, or whether I can get any pay for them. ~~A man of such marked inconsistency between words and deeds, as you have systematically exhibited towards me for nearly twenty years, deserves not to be confided in, either as a friend, a man of sense, or a man of sincerity.~~

If, as your conduct for nearly twenty years has implied, you really think that your money is too good to go with my labor, when we believed in the same ideas and are laboring for the same ends. Your opinion may be right, but it is so wholly different from mine, as to be incompatible with friendship between us. If your professed appreciation of my labors has been sincere, I think you refusal to aid them, it is has not been entirely selfish, and unprincipled, has at least been extremely narrow-minded dishonorable and heartless.

When your own rights are at stake, you say you prefer my services to those of any body in the country. But where I am arguing a case for all mankind, you care nothing about it. Although you acknowledged its truth and importance. What your motives in this may have been it is not for me to know: but I cannot believe that a person, capable of such inconsistency, has any claim upon my friendship, and from this time I repudiate the idea of there being any friendship between us.

There is no foundation for any special friendship between us, unless it be the foundation of sympathy and co-operation in carrying

out ideas in which we both believe. How little real foundation there is of that kind, the experience of nearly twenty years has demonstrated . I therefore repudiate the idea of there being any such friendship between us, and will not tolerate the pretence, where the reality does not exist. I have no more regard for sham friendships than for any other sham.
